PROFESSIONAL SUMMARY

Full-Stack Web Developer with 2+ years of experience building production web apps for clients in the UK and the Middle East. Currently at Neea Studios Ltd (UK), building the Polimapper geospatial intelligence dashboard with React, TypeScript, Mapbox and Highcharts, and developing the company's WordPress websites. I deliver end-to-end products with Next.js, React and TypeScript on the front end and Laravel, Node.js and Supabase on the back end, from bilingual (Arabic/English) learning platforms and B2B marketplaces to WordPress business sites. Strong in state management (TanStack Query, Zustand, Redux Toolkit), interactive maps and data visualisation, form-heavy dashboards, and turning Figma designs into fast, accessible, responsive interfaces. Every project I ship is tuned for SEO, Core Web Vitals, accessibility (WCAG 2.2 AA) and best practices.

PROFESSIONAL EXPERIENCE

Frontend & WordPress Developer · Neea Studios Ltd

Mar 2026 – Present

Plymouth, UK (Remote) · Full-time

Building the Polimapper geospatial intelligence platform, a React and TypeScript dashboard that helps public-affairs teams turn constituency data into interactive maps, campaigns and reports, and developing the company's WordPress websites.

- Built admin and client workflows for stakeholder management, project dashboards, map templates, data tools and client/admin settings.
- Developed interactive Mapbox / MapLibre map layers and geospatial visualisations, plus Highcharts and ECharts analytics views.
- Delivered a drag-and-drop page builder with custom widgets, and campaign / e-action management for advocacy teams.
- Implemented authentication guards, role-based routing, and reusable form, table, filter and upload components with React Hook Form and Zod.
- Build and maintain the company's WordPress websites with Elementor, custom themes, PHP and CSS.
- Improve SEO, performance, accessibility and best practices across the web platform and WordPress sites: technical and on-page SEO, Core Web Vitals, image and asset optimisation, WCAG 2.2 AA fixes and Lighthouse audits.

Tech: React.js, TypeScript, Vite, Tailwind CSS, Shadcn UI, Zustand, TanStack Query, React Router, Mapbox GL, MapLibre, Leaflet, Highcharts, ECharts, Craft.js, React Hook Form, Zod, AWS Amplify, WordPress, Elementor, PHP, Technical SEO, Core Web Vitals, Lighthouse, WCAG 2.2
